

**Rapid  
clamps**

**Galvanised compression couplings**

Rapid galvanised compression couplings are made to suit Australian standard galvanised, steel, and uPVC pressure pipe sizes.

Natural rubber gasket included for optimum sealing

Compression couplings are a quick and effective way to join pressure pipes together eliminating the need for welding.

**MATERIAL SPECIFICATION & STANDARDS**

Designed and manufactured under Quality Management System, certificate to ISO9001:1994.

- **Couplings and End Nuts**

Malleable Galvanized Iron

- **Gasket**

Natural Rubber

- **Pressure Rating**

1600 KPa.

| Code   | DN Size       | To Suit OD Pipe |
|--------|---------------|-----------------|
| RGC15S | 15mm ½ inch   | 21.3mm          |
| RGC20S | 20mm ¾ inch   | 26.7mm          |
| RGC25S | 25mm 1 inch   | 33.4mm          |
| RGC32S | 32mm 1 ¼ inch | 42.2mm          |
| RGC40S | 40mm 1 ½ inch | 48.3mm          |
| RGC50S | 50mm 2 inch   | 60.3mm          |

**Rapid  
clamps**

This Product Does Not Restrain Axial Pipe Movement
